**DESCRIPCIÓN DE LAS MEDIDAS DE ADAPTACIÓN / *DESCRIPTION OF ADAPTATION MEASURES***

En caso de que no se necesiten medidas especiales, deberá indicarse expresamente en esta adenda y subirla al apartado correspondiente.

The content and the methodology are unchanged. The organization of the classes will change as follows: Instead of one session with all the students; we will have one online session with all the students to cover the main theoretical aspects; and one on campus session in smaller groups.

En este apartado deben anticiparse las medidas de adaptación que se pondrán en práctica en un eventual escenario de nueva emergencia sanitaria, en lo que difieran de lo previsto en la ficha REINA para el modelo docente regular de este curso. In this section, you will include the adaptation measures required by a scenario of a new health emergency, if they differ from the regular teaching model of this course.

In case of a new emergency, the course would be taught 100% online.

Se detallarán todos los aspectos que se modifiquen en esta situación. En particular, las actividades docentes y metodologías empleadas (grabaciones de clases, mayor utilización de foros, chats, realización de tutorías, exposiciones en aulas virtuales, realización de trabajos, etc.), así como lo relacionado con el proceso de evaluación (cambio en el tipo de evaluación final empleado, en su caso entrega de trabajo, examen tipo test, prueba oral, etc.) All the aspects that are modified in this situation will be detailed. In particular, teaching activities and methodologies used (class recordings, greater use of forums, chats, tutoring, exhibitions in virtual classrooms, work, and like) as well as related to the evaluation process (change in the type of final evaluation used, if applicable, essays, test-type exam, oral test, etc.)

The course content and methodology are unchanged. The main change is in the online teaching where the following platforms will be employed:

- The platforms, tools and resources used for the transition to the teaching-learning model in an online mode, and for the set of activities (both carried out synchronous and non-synchronous) are:
  - o Blackboard Collaborate: this platform is used to teach the sessions, record video tutorials on the course content and the explanation exercises, and to carry out individual and group tutorials.
  - o Aula Global (Moodle): this platform is used to provide course materials to students, as well as for assessment tests (both carried out synchronous and non-synchronous) and as a means of communication and consultation forum.
