Notes:

(Lay 1.3) Section of D. C. Lay's book containing the material covered in the corresponding session.

(\*1) Study the corresponding sessions in D. C. Lay's book

(\*2) Selected exercises from D. C. Lay's book corresponding to the previous lecture in large group

(\*3) Do some of the odd numbered exercises in D. C. Lay's book corresponding to the previous lecture in large group and compare with the solutions in the book

(\*4) There are 29 sessions. 15 of theory, 14 of exercises. The extra theory session occurs (due to the university schedules) on week 6.

(\*5) 1,66 hours (in fact 10/6) corresponds to 100 minutes each session.
