CRONOGRAM OF THE COURSE

| Week | Lecture | DESCRIPTION OF THE LECTURE'S TOPICS | $\begin{gathered} \hline \text { GROUP } \\ \text { (Mark X) } \end{gathered}$ |  | Classroom | STUDENT WORK DURING THE WEEK |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Lecture | Recitation |  | DESCRIPTION | Number of Lecture Hours |  |
| 1 | 1 | Consumer Theory. Preferences; indifference curves | X |  |  | Reading lecture notes and solving exercises assigned. | 1,5 | 5 |
| 1 | 2 | Exercises. Binary relation: representation and properties; indifference curves and indifference maps; goods complementarity and substitutability. |  | X |  | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |
| 2 | 3 | T Consumer Theory. Utility functions, marginal rate of substitution, budget sets. | X |  |  | Reading lecture notes and solving exercises assigned. | 1,5 | 5 |
| 2 |  | Exercises. Calculating and interpreting the marginal rate of substitution; representing budget sets; impact on budget sets of changes un prices, income, discounts, subsidies and coupons. |  | X |  | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |
| 3 | 5 | Consumer Theory. The consumer problem: interior and corner solutions. | X |  |  | Reading lecture notes and solving exercises assigned. | 1,5 | 5 |
| 3 | 6 | Exercises. Finding interior and corner solutions to the consumer problem; lexicographic preferences. |  | X |  | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |
| 4 | 7 | Consumer Theory. Demand functions; income and substitution effects. | X |  |  | Reading lecture notes and solving exercises assigned. | 1,5 | 5 |
| 4 |  | Exercises. Calculating demand functions; Engel curves: normal and inferior goods; Giffen goods; calculating the income and substitution effects. |  | X |  | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |

| 5 | 9 | Consumer Theory. The consumption and leisure model; labor supply. | X |  | Reading lecture notes and solving exercises assigned. | 1,5 | 5 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 5 | 10 | Exercises. Budget sets in the consumer-leisure model; calculating labor supply; wages and taxes. |  | X | Presenting and discussing the solutions to exercises and homework. | 15 |  |  |
| 6 | 11 | Consumer Theory. The compensated and equivalent variations; price indices; consumer surplus. | X |  | Reading lecture notes and solving exercises assigned. | 1,5 |  |  |
| 6 | 12 | Exercises. Calculating the compensated and equivalent variations; taxes and subsidies; price statistics; calculating consumer price indices. |  | X | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |  |
| 7 | 13 | Consumer Theory under uncertainty. Preferences over lotteries; expected utility. | X |  | Reading lecture notes and solving exercises assigned. | 1,5 |  |  |
| 7 | 14 | Exercises. Problems of decision under uncertainty (insurance, investment, etc.) and their resolution. |  | X | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |  |
| 8 | 15 | Consumer Theory under uncertainty. Risk attitudes; certainty equivalent; risk premium; value of information. | X |  | Reading lecture notes and solving exercises assigned. | 1,5 |  |  |
| 8 | 16 | Exercises. Calculating the certainty equivalent and risk premium of a lottery; calculating the value of information. |  | X | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |  |
| 9 | 17 | Theory of the Firm. Technology; production function; marginal rate of technical substitution; returns to scale. | X |  | Reading lecture notes and solving exercises assigned. | 1,5 |  |  |
| 9 | 18 | Exercises. Production functions; isoquants; calculating the marginal rate of technical substitution. |  | X | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |  |
| 10 | 19 | Theory of the Firm. Profit maximization, short and long run. | X |  | Reading lecture notes and solving exercises assigned. | 1,5 |  | 5 |

| 10 | 20 | Exercises. Short and long run production functions; marginal productivity of inputs; determining the returns to scale. |  | X | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 11 | 21 | Theory of the Firm. Cost minimization; cost functions; economies of scale. | X |  | Reading lecture notes and solving exercises assigned. | 1,5 | 5 |
| 11 | 22 | Exercises. Calculating and graphing cost functions; returns to scale and economies of scale. |  | X | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |
| 12 | 23 | Theory of the Firm. The supply of the competitive firm; competitive markets. | X |  | Reading lecture notes and solving exercises assigned. | 1,5 | 5 |
| 12 | 24 | Exercises. Calculating the competitive firm supply; firm's profit and producer surplus. |  | X | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |
| 13 | 25 | Theory of the Firm. Monopoly Equilibrium. | X |  | Reading lecture notes and solving exercises assigned. | 1,5 | 5 |
| 13 | 26 | Exercises. Calculating the monopoly equilibrium; consumer and producer surplus. |  | X | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |
| 14 | 27 | Theory of the Firm. Monopoly regulation; price discrimination. | X |  | Reading lecture notes and solving exercises assigned. | 1,5 | 5 |
| 14 | 28 | Exercises. Regulating a monopoly: maximum prices, rate of return regulation, taxes; calculating the monopoly equilibrium with price discrimination. |  | X | Presenting and discussing the solutions to exercises and homework. | 1,5 |  |
| SUBTOTAL |  |  |  |  |  |  | 120 |
| 15 |  | Make ups, tutoring, homework assignments, etc. |  |  |  |  | 8 |
| 16-18 |  | Final exam/Studying for the final exam. |  |  |  | 3 | 19 |
| TOTAL |  |  |  |  |  |  | 150 |
